

CleanRite Biozyme is a formulation of several selected bacillus micro-organisms designed to digest grease, vegetable matter, slime, sludge, and other organic wastes. All of which are common in restaurants, bars, food manufacturing, and other food related facilities. This organic material is used by flies and other insects as both a food source and as a breeding area. **Biozyme** actively digests this material, and as a result - eliminates the potential hazard posed by organic waste.

Biozyme can safely be used in both residential and commercial areas. It aids in cleaning grease traps, floors, drains, and drink lines through natural bacterial-enzymatic activity. It speeds up the breakdown and digestion of organic solids.

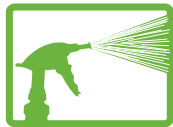

Biozyme's proprietary formula contains selected bacteria strains targeted for digestion of specific substances: Protease for protein, amylase for starches, cellulose for paper and vegetable fibers, and lipase for fats and greases.

- Removes hard to clean organic waste
- Improves drain flow
- Reduces odors
- Biodegradable, non-toxic, non-pathogenic, non-caustic

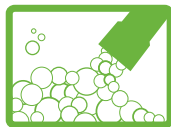

CleanRite[®] **BIOZYME**

Triple Action Formula Eliminates Organic Waste Build-Up

DIRECT APPLICATION

FOAMING

MOP WATER

**Use in floor drains, disposal units, grease traps
and other hard to clean areas.**

CAUTION: Keep out of reach of children

May be harmful if swallowed
May cause skin irritation
See side panel for caution statements

NON-TOXIC • NON-CORROSIVE • CONCENTRATE

DIRECTIONS

TRIGGER APPLICATOR: Apply directly with foaming trigger applicator on walls, baseboards and floor areas under food service equipment. In kitchens, food manufacturing, bars, and areas where organic debris collects.

INDUSTRIAL FOAMER: Apply full strength or diluted with water in foaming sprayers into floor drains, beer or soft drink drain lines where the Biozyme can dissolve the built up deposits of grease and other organic waste.

MOP WATER: Mix 4-6 ounces per gallon of mop water to direct Biozyme into cracks and crevices, grout, drains, equipment legs and broken floor tile. Repeat weekly or as needed.

- Do not rinse after application
- Not for use on food surface areas
