# IMPROVE YOUR TRAPPING RESULTS

TrapRite stations are ideal for both residential and commercial applications, and research shows mice prefer cardboard 5 to 1 over plastic stations. Also, by trapping rodents inside the box using traditional snap traps and glue boards you contain the biohazard in an economical and disposable station.

**Sound** - Studies show that rodents prefer cardboard due to its sound dampening qualities.

**Whiskers** - Our unique tunnel shape allows rodent whiskers to touch both sides of the box, relaxing them and increasing the chance that they will enter.

**Temperature** - Cardboard is preferred by rodents in hot or cold environments, increasing rodent acceptance and improving trapping results.

\* Private labeling available

Use TrapRite stations in sensitive areas where rodenticides are restricted or prohibited, such as schools, hospitals and food facilities.

Part#	Dimensions	Qty	Weight
<b>A</b> 2156 MS	4.5"D x 2.5"H x 9"W	50/cs	8lb.
<b>B</b> 2154 RS	6"D x 3"H x 10.25"W	50/cs	13lb.
<b>C</b> 2152 RST	8"D x 4.75"H x 11"W	50/cs	19lb.
<b>D</b> 2158 MS Tunnel	12"D x 2.5"H x 2.5"W	50/cs	8lb.
<b>E</b> 2160 RST Tunnel	22.5"D x 4.5"H x 4"W	50/cs	13lb.
<b>F</b> 2159 Glue board	4"D x 8"W	72/cs	3lb.
